**SUMMER'S HERE AND
THE BOYS ARE OUT!**

BEACH BOYS

Back in mid May we took a group of lads to southern Spain for some outdoor shoots and promotional shots.

One of the shoots we did was with Zack, Dan and Rich on the beach; I wanted that ideal shot of them with a little bit of water lapping around and the guys dripping in the sunshine. The sea and sky were really striking that day and there was just a gentle breeze, but there was quite a swell, and not just in Dan's shorts, but the sea was really quite rough.

This was ideal for the shot that we wanted as every few minutes a bigger wave came along and through up some water. Though little did we know there was a whopper on its way and as I took some more shots of Zack and the lads. I could see this wave come up on them and tower over them... the next minute they were knocked off their feet and swept out to sea about 20 meters, all in the space of seconds!

We managed to get some great shots, but after this dousing we retreated to the safety of the beach.

TOP BOY

A YEAR AFTER HIS FIRST APPEARANCE ON THE SITE, WE CHAT TO DAN BROUGHTON ABOUT BEING ONE OF OUR POPULAR MODELS

Dan Broughton

Dan first started modelling for us just over a year ago in the Spring of 2011. He has since become a regular model on the site, working with many of our Straight models in duo shoots and also letting his hands and mouth make cameo appearances in the more teasing massage videos.

How did you become a model?

I first got the taste for modelling from back in 2007 when I won the Mr Gay UK contest. I went on to do a bit of fashion modelling and also teasing photoshoots for the general gay magazine market, but never anything frontal. I had toyed with the idea of getting in to the Adult Industry, then one day I emailed the site and here I am!

Whats the best bit about modelling for englishlads?

I'm really turned on by the mischievous Straight lad, or the curious Bi Boy, and working with englishlads.com allows me not only to work with some of the countries best talent, but also allows me to fulfil some of my own dirty fantasies.

Do you get recognised?

Yes, sometimes. It feels a bit strange at first that people you've never met recognise you. Some people will be very direct and ask for a picture and some people will be more discreet about it. But I enjoy the attention.

What would you say to someone who was considering joining the industry?

Think carefully about it, talk to the producer get all of your questions answered and don't get underpaid. You're not obligated to do anything you don't feel comfortable with so don't get bullied, do what you are happy to do!

HAVE YOU EVER WATCHED ONE OF OUR MOVIES OR LOOKED AT OUR PHOTOS AND THOUGHT...

'I COULD DO THAT'?

DO YOU HAVE WHAT IT TAKES TO BE ENGLISHLADS NEXT TOP MODEL?

WHO CAN BE A MODEL?

We are looking for models aged 18 up to about their mid 20's. You don't need any previous experience and can be gay, str8, bi or a bit curious. Typically you would have a slim, toned or muscular body. We use models from all over the UK and occasionally from abroad!

WHERE WILL THE SHOOT TAKE PLACE?

Most of the shoots take place at our studio in London, or sometimes on location.

WHAT HAPPENS AT A SHOOT?

A shoot is two parts; one for still photos and one movie, with each taking roughly sixty minutes. We typically do solo shoots with str8 lads; these involve a teasy strip, posing nude, wanking and having fun until you cum. Then duo shoots with gay, bi & curious str8 lads; the duos with gay models include kissing, sucking and fucking (always with condom) and may be less full on with bi or curious lads!

HOW CAN I APPLY TO BE A MODEL?

If you are interested in talking more, please visit www.englishlads.com and click on the 'Model 4 Us' page. Then complete and send us the form along with 2 photos, a head shot and a full body shot.

We find it works best to meet up with potential models for an informal chat before we do any work.

LET'S GO OUTSIDE!

DURING THE HOT WEATHER THE WHOLE IDEA OF HAVING SEX AND BEING NAKED OUTSIDE BECOMES A LOT MORE APPEALING SO LETS LOOK AT MAKING PORN EL FRESCO

One of the trickiest things about shooting porn outdoors in the UK is the obvious one... the unpredictable nature of our weather. You can look at a forecast for 2 days ahead and it might say its going to be 25 degrees, so plan the shoot. You then arrive at the location and the reality is that its barely 12 degrees, cold enough to guarantee shivering and cocks the size of chipolatas!!

Some of our models are just designed for doing shoots outside, because a third say the sun makes them horny. So film them outside in a quiet location and you are guaranteed some hot and sweaty action. This goes as much for our str8 models too, who in general seem to love the idea of a play in the sand dunes or the woods. There is probably something about the idea of being caught or seen that adds to the thrill and is part of the turn on for some of the models.

RIPPED HOT BODY

TOP TRAINING
TIPS TO GO
FROM ZERO TO HERO!

永不言败 把握机遇

Stretching!!

Stretching not only improves appearance, lengthens muscles and gives that lean, toned look, but it also improves fitness and health. Its perfect for preventing injuries; in fact, at least 50% fewer "over extension" injuries are reported with athletes who use a regular stretching routine compared to those who don't!

Stretching is a great warmup or cooldown & prevents soreness and promotes faster muscle recovery.

Recovery!!

If you don't allow enough time for recovery, you won't grow. It's that simple. For a muscle to grow, it has to recover first. Training each muscle group once or twice a week is sufficient for most people.

Spice up your life!!

Spicy foods can temporarily increase your BMR (Basal Metabolic Rate). They can increase your body's temperature for a short period after consumption meaning that you could burn more calories as your body attempts to regulate it's temperature.

Before embarking on a fitness regime discuss it first with a health and fitness professional!!

You Are What You Eat!!

If you're really serious about getting a summer body then good diet and nutrition are really important. Keep the saturated fat and refined carbohydrates down. No more than 20 percent total fat, and no junk food. Just get rid of it!

OUR SISTER WEBSITE
FitYoungMen.com

FitYoungMen.com is a photography website and the models we choose to work with are very athletic and sport has been a large part of their background. Very few of the lads have modelled before and so you won't be able to see them any where else. The photo sets are based around the model's main sport; some in their kit and mostly out of it. My aim was to show off men at about their physical peak, linking their athletic body to the sport that shaped it. The typical shoot shows the model in their sports kit, in underwear and subtle nude shots. I wanted to focus on the models body with subtle eroticism, it's mostly shot in the studio and I use lighting to exaggerates body definition and many of the models were happy to get slightly aroused to show it off at its prime.

My approach to photography is always the same; we do not style models, we do not use make-up, we use models that look after themselves and the photographs are shot as we need them and not manipulated.

If you like athletic men who are natural on camera you are bound to like our models.
